EDUCATION

NATIONAL INSTITUTE OF TECHNOLOGY, RAIPUR

MASTERS IN COMPUTER APPLICATIONS(M.C.A.)
2021 - 2024 | CPI - 7.48

SHRI GUJRATI SAMAJ INST. OF PRO. STUDIES, INDORE

BACHELORS IN COMPUTER APPLICATIONS(BCA)
2018 - 2021 | Cum. Per.: 66.14%

GOVT. BAL VINAY MANDIR H.S. EXCELLENCE SCHOOL, INDORE PCM

CLASS 12TH
Passed 2018 | Cum. Per.: 78.2%

M.P. POLICE PUBLIC SCHOOL

CLASS 10TH
Passed 2016 | Cum. Per.: 78.33%

SKILLS

PROGRAMMING

LANGUAGES:

- Advance - Java
- Intermediate - C, SQL
- Basic - Javascript

FRONTEND:

- HTML • CSS • Bootstrap • React

BACKEND:

- Firebase • NodeJS

IDE:

- Visual Studio Code

SCM:

- Github

TOOLS:

- Adobe Premiere Pro • Linux

COURSEWORK

GRADUATE

Object Oriented Programming
Database Management System
Data Structures
Operating System
Computer Networking

PROFILES

- [Leetcode](#)
- [GfG](#)
- [Github](#)

PROJECT(S)

SOCIAL MEDIA WEB APPLICATION

HTML | CSS | JAVASCRIPT | REACT | NODE | MONGODB | EXPRESS

- It is a dynamic web application developed using MERN stack. Developed user profiles for each registered user, allowing them to customize their profiles with profile picture, bio and personal information. Enabled users to edit and update their profile details easily. Developed a user-friendly interface for selecting and uploading media files. Supported various media formats, including images and videos

Role & Responsibility:

- Implemented user authentication and authorization to enable registered users and manage their profiles.
- Implemented a media upload feature allowing users to share photos and videos from their devices

Code - <https://github.com/Prakash9399/socialmedia>

REACT CARD GAME

HTML | CSS | JAVASCRIPT | REACT

- It's a ReactJS game where you match pairs of cards. Click on two cards; if their images match, they stay face up and game is over, otherwise they flip back. The goal is to match any two cards with the fewest turns.

Role & Responsibility:

- Used React's component-based architecture to create a dynamic and responsive card game. Players can enjoy an engaging and interactive experience as they shuffle, deal, and play cards in a user-friendly interface.
- I used CSS for styling and made sure the project worked well on different web browsers and devices. I also regularly updated it to give users a smooth gaming experience.

Code - <https://github.com/Prakash9399/react-card-game>

Live - <https://prakash9399.github.io/react-card-game/>

MY PERSONAL PORTFOLIO

HTML | CSS | JAVASCRIPT

- Designed and developed a my personal portfolio website showcasing my skills and projects.

Code - <https://github.com/Prakash9399/Portfolio>

Live - <https://prakash9399.github.io/Portfolio/>

ACHIEVEMENTS

- Chocolate Problem Winner in Coding Bootcamp at NIT Raipur 2k23.
- Achieved 16th rank in Algo University's coding contest at NIT Raipur 2k23.
- Solved 400+ questions on Leetcode platforms
- Solved 170+ questions on GFG platforms
- Got AIR-547 in NIMCET 2021 and secured admission in NIT.
- Got AIR-123 in BHU Entrance exam among 13k + students

POSITION OF RESPONSIBILITIES

LAB ADMIN

Organised Database Management System Labs and workshops & problem-solving contests to improve the coding environment.
